#### Jamo S 502 HCS 51

If you are out in the market for a super-compact and highly versatile quality home cinema system, you have no need to look further.

The S 502 HCS 51 comprises of five identical speakers, an ultra-slim passive subwoofer and an elegant DVD receiver.

The Jamo S 502 DVD receiver can play all current file formats and supports the majority of normal Dolby standards. Additionally, the S 502 DVD receiver has both the necessary enhancements and advanced features such as USB 2.0 port and HDMI output, features which

you normally only find on more expensive systems. With HDMI you can connect the system directly to nearly all new flat screen TVs.

#### Features:

- HDMI output for crystal-clear video and audio
- All-in-one package with everything you need for a home cinema experience.
- Plays DivX, WMA, MP3, JPEG files from disc or directly from USB 2.0.
- 425 W total music power.
